## Section 2: Important Message for Rhaegan's Parents

You have chosen to help Rhaegan by working with her to take the BOTS DISC profile assessment. We want to commend you for this desire and for spending this time with Rhaegan. Use this opportunity to learn new things about her and her personality.

Understanding is what she needs first from you. You have given Rhaegan the freedom to make selections in the BOTS assessment, and now this report is providing some feedback for you to review.

We have endeavored to develop an assessment tool using pictures and stories that allows us to determine the personality blend of the children ages 4-12. Overall, we have found that the results are usually accurate, but we fully recognize that there is room for adjustments. Naturally, the younger a student is, the less objective and predictable responses may be.

We recommend that you view the results of this report as a 'snapshot' of Rhaegan's personality. Realize that results can vary to some degree, so these results are not to be considered conclusive. **We certainly believe that these results are fairly accurate and provide a good starting point for you to approach Rhaegan in a more effective way.**

The entire experience is a learning tool for both of you. We hope you benefit from spending time trying to understand Rhaegan. Perhaps you will think more deeply about what motivates her to behave the way she does.

Rhaegan's self-awareness is growing as she grows, so you want to encourage that growth while also allowing for her age and maturity level. If Rhaegan happened to make choices in the assessment that seem to indicate who she would LIKE to be rather than who you think she REALLY IS, then it could mean that Rhaegan needs your encouragement to recognize, accept and appreciate how special she is. In that case, simply focus on affirming her as a special young person with value and worth to you and to others and herself. Just like you, we want Rhaegan to grow to become all that she is meant to be. Use this opportunity to help your relationship be even more open and honest.

**We hope you enjoy this great opportunity to learn to relate better with Rhaegan!**
